Founded 2021 · Abeyaantrix Technology Pvt Ltd

Supercharge Your *Construction Business.*

We are **Onsite Teams** — a construction ERP built specifically for Indian contractors, builders, and EPC firms. Not a generic ERP with a construction module. **A system designed from real project sites**, for the way India builds.

"We used to lose 3–4 days every month reconciling site records with Tally. Onsite cut that to an afternoon."

— Project Manager, EPC Company, Ahmedabad

WHO WE SERVE

Construction Companies That Use Onsite ERP Software

From residential builders managing 5 units to EPC companies running ₹500 crore infrastructure projects.

Builders & Developers

End-to-end **construction ERP for builders** — BOQ, procurement, progress, and billing from planning to handover.

EPC & Infra Contractors

Multi-site visibility, BOQ tracking, **subcontractor management**, and daily progress reporting for large **infrastructure projects**.

Civil Contractors

Civil contractor software with material management, GPS attendance, quality checklists, and real-time cost tracking.

MSME Construction Firms

WhatsApp-first workflows that don't require an IT team. **Go live in a day**, not a quarter.

Middle East Projects

Multi-currency, multi-site support for Indian contractors in UAE, Qatar, and Saudi Arabia.

Interior Companies

Interior design ERP — scope management, client selection tracking, vendor billing, and project P&L.

WHAT WE STAND FOR

Our Principles as a Construction Software Company

Not wall-poster values — the actual filters we use when building features, pricing the product, and hiring people.

01

Site-First Thinking

Every feature is designed for the person on the construction site. If a site engineer can't use it on a dusty Android phone, we haven't done our job.

02

Zero Cost Leakage

The average Indian construction project loses 15–20% to overruns and wastage. Onsite exists to make every rupee visible, tracked, and accountable.

03

WhatsApp-First Operations

Indian construction runs on WhatsApp. We built around that reality. Approvals, alerts, and updates work where your team already works.

04

Transparent Pricing

No hidden fees. No per-module charges. No "contact sales" games. You sign up, you

05

Shaped by Real Clients

Our 500+ client WhatsApp groups are also our product team. Every major feature has

06

Built to Scale With You

Whether you're managing 2 sites today or 50 tomorrow, Onsite scales without a new contract or implementation cycle.

get the full platform — nothing locked away.

a contractor’s name behind the request that triggered it.

HOW WE BUILD

How We Build Our Construction Management Software

Feature requests come daily from 500+ client WhatsApp groups, renewal conversations, and onboarding calls. Our product team reviews them weekly and ships what matters most.

WhatsApp Feedback

Onboarding Insights

Renewal Conversations

Site Visits

AI Call Analysis

- 1

Idea From the Field
A client WhatsApp group or support call flags a real friction point on site.
- 2

Product Team Review
We check frequency and impact — how many clients face this, and how much does it cost them?
- 3

Prototype & Feedback Loop
A working build is shared with the clients who raised it. They test, we refine.

- 4 **Release & Onboard**
Shipped with a walkthrough video and live support for the first users.

WHY ONSITE

Why Contractors Choose Onsite Over Other Construction ERP Software

WhatsApp-Native Notifications

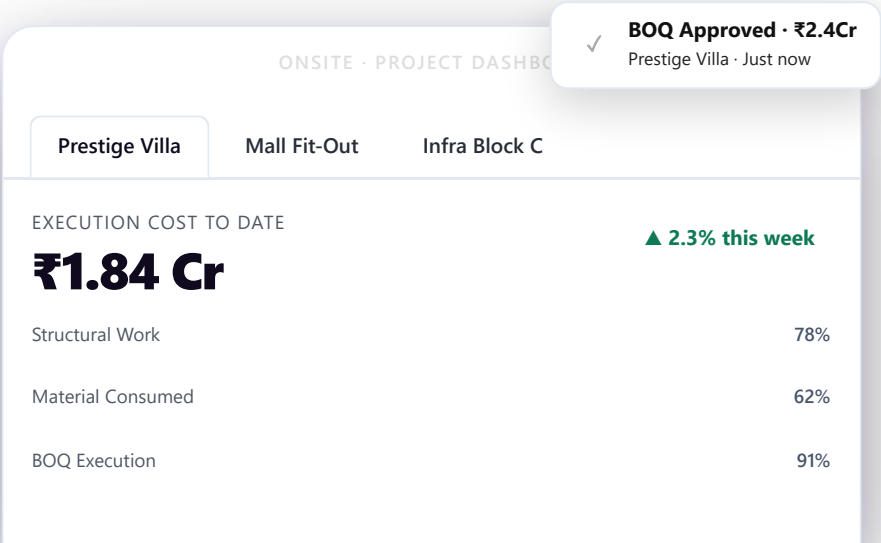

Attendance alerts, approvals, billing summaries — delivered to WhatsApp so your team doesn't need another app.

Tally & Zoho Books Integration

Finance stays on Tally. Site uses Onsite. POs, invoices, and payments sync both ways — zero double entry.

GPS & Face Recognition Attendance

 Geo-tagged clock-ins and face scans ensure accurate labour records even on remote sites.

 **Real-Time Project P&L**
Actual vs budgeted costs — by project, by cost head, by contractor. No month-end surprises.

 **AI-Powered DPR Generation**
Daily Progress Reports generated from site inputs automatically, with AI suggestions on delays.

 **Live in 1 Day**
Dedicated onboarding managers load your material library, BOQs, and party master so you're operational immediately.

INNOVATION

AI and Automation Features in Onsite Construction Software

Construction hasn't fundamentally changed how it runs in 40 years. Onsite is changing that — with tools that solve real problems, not just demo well.

AI-Powered Drawing Analysis

Upload architectural drawings and extract BOQ quantities automatically — cutting estimation from days to hours.

WhatsApp-First Field Operations

Attendance, material indents, DPR entries, and approvals — without a separate app download.

Two-Way Accounting Sync

Real-time two-way sync with Tally ERP and Zoho Books. POs, bills, and payments flow automatically.

 Zoho CRM

Smart Material Intelligence

Track procurement rate trends, flag unusual purchases, and get reorder suggestions based on project progress.

SUPPORT & PARTNERSHIP

Onsite ERP Onboarding and Customer Support

Our onboarding team loads your data, trains your team, and stays available through the first 30 days.

Dedicated Onboarding Manager

Every client gets a named manager who loads material library, BOQs, and party master data before go-live.

WhatsApp Support — Always On

Question during bill finalization at 9 PM? Our team is reachable, not just in business hours.

Trust in Numbers

Why contractors stay with Onsite year after year.

98%

Revenue renewal rate — clients don't leave

<1 day

Average time to go live after sign-up

500+

Active client groups, India & Middle East

"We used to lose 3–4 days every month reconciling site records with Tally. Onsite cut that to an afternoon."

**Module-Wise Training Videos**

Short practical tutorials for every module in Hindi and English.
Learn at your own pace.

**Proactive Renewal Check-ins**

Our team checks in 60 days before renewal — not to upsell, but to make sure you're getting full value.

— Project Manager, EPC Company, Ahmedabad

FAQ

No credit card required · Setup in <1 day · Dedicated onboarding manager included

Onsite is a construction management software built to help construction companies run projects with clarity and control. As a complete construction ERP software, it connects site teams, project managers, procurement, and finance on one platform. By replacing scattered tools and manual tracking, Onsite construction software helps businesses save time, reduce cost leakages, and improve execution across every project. The result is a practical ERP software that supports real site operations, not just reports.
