EPC CONSTRUCTION SOFTWARE

Construction ERP Software & App for EPC Companies

EPC projects fail at the handoff — Engineering draws, Procurement orders, Construction builds, but **no single system connects all three**. Onsite gives EPC teams live BOQ tracking, real-time procurement visibility, and site execution control in one platform.

- ✓ BOQ-linked procurement — every PO tied to scope, not guesswork
- ✓ Multi-site execution tracking — labour, material, and progress from any site

- ✓ Live cost vs budget across all three phases — no month-end surprises
- ✓ Subcontractor billing with milestone and retention controls built in

Onsite is a construction management software built to help construction companies run projects with clarity and control. As a complete construction ERP software, it connects site teams, project managers, procurement, and finance on one platform. By replacing scattered tools and manual tracking, Onsite construction software helps businesses save time, reduce cost leakages, and improve execution across every project. The result is a practical
